

13 June 1967

Significant Points of Difference  
in the Design  
of  
Terms of Reference for the TOD

<u>Point</u>	<u>Position</u>	
	<u>Benington</u>	<u>NIPE Staff</u>
1. Should the final "Committee" report go as far as to recommend selected analyses be undertaken? (Purpose of the TOD Exercise)	<u>No.</u> Committee should only: "Recommend further action."	<u>Yes.</u> Committee should recommend selected analyses plus other actions.
2. Who should chair the TOD Exercise?	DOD, but would defer to DCI if the latter insists.	DOD chair the Exercise through the development of the terms of reference, the statement of guidelines for submission of data, and issuance of the call <sup>a/</sup> for data. DCI <sup>a/</sup> staff should then receive, aggregate and evaluate data.

Secondary Issues

a. Should we transfer responsibility in mid-stream?	If transfer is made, DOD chairmanship should stop with approval of the "Terms of Reference" and issuance of the call for the TOD Exercise. for data.	DOD Chairmanship should continue through the two next steps of preparing data guidelines
b. Target date for 1st data array.	1 October 1967	Early 1968

a/ - Only if a reasonable target date is agreed to.
